

Pathologists for Ukraine

One Day Virtual Symposium Saturday, August 13, 2022

Welcome note:

People worldwide are shocked by the war in Ukraine - the society is showing enormous willingness to help.

With this symposium we would like to support our colleagues in Ukraine in particular and show them our solidarity. Many members of national and international societies take part in this action and we are thankful for the support of each one.

All participation fees of this event will be used - in close coordination with an Ukrainian colleague - especially for medical care and diagnostics on site.
