**09.00 - 16.00 Historical center of the village of
LĪGATNE PAPER FACTORY.**
(Lunch included)

Already for 200 years, the name of Līgatne has been closely connected with the paper factory. The factory was founded in 1815 and had its heyday at the end of the 19th century. Guests of the town have the opportunity to get an insight into the history of the town, to see the most beautiful places in the town center and to get acquainted with the way of life of the local inhabitants at that time within a visit to the historical center of the paper mill village. Accompanied by a tourist guide, the guests can visit the paper mill production plant and the residential and public buildings. Also worth a visit are the sandstone caves, where the inhabitants of the town store their vegetable stocks harvested in the fall.

09.00 - 16.00

Rundale Castle (*Lunch included*)

The 18th-century Rundāle Palace is the most outstanding example of Baroque and Rococo architecture in the entire Baltic region. Unlike many European palaces, Rundāle has preserved the stylistic integrity of its century's architecture, as there was hardly any reconstruction or modernization in the later periods. This is also true of the landscape of the Sēmgallen (Lat. Zemgale) region surrounding the palace. However, the interior of the castle suffered greatly from the two world wars in the 20th century. It is only through fifty years of careful restoration and thanks to the extraordinary dedication of art historian and painter Imants Lancmanis (1941), who was also the director of the museum from 1972 to 2019, that the castle can be admired in its original splendor by interested visitors.

13:00 – 14:30

Lunch@ Mazmežotnes muiža

Mazmežotne manor and mansion - a fusion of culture, art and well-kept environment

In 1795 Charlotte von Lieven received the manor as a gift from the Russian Tsarina Catherine II. It was at this time that the construction works began. The buildings suffered considerable damage during the 1st World War. During the first years of Latvia's state independence, the manor was managed in an exemplary manner, and in WW2 the residential building was destroyed by fire. In 2007 the restoration of the ensemble began. Mazmežotne is located on an oxbow lake of the Lielupe River. The manor is now used for tourism. For friends of active recreation and nature lovers also bicycle tours, boat trips, walks on the

nature trail and the surrounding trails. A nature trail has been established in the vicinity of the manor, which runs along the left bank of the Lielupe River and acquaints with the natural diversity of the riverbank.

R2 Excursion on Saturday, May 20, 2023

09.00 - 16.30 **Jaunmokas - family house of mayor of Riga George Armitstead & Jurmala**
(Lunch included)

Jaunmokas (New Mock) Castle was built around 1901 for the head of Riga George Armitstead as a hunting lodge and his summer residence. The castle and the horse stable were designed by the architect Wilhelm Bokslaf in 1898. Jaunmokas Castle is one of the most famous brick buildings in Latvia. The interiors were restored in the style of a hunting lodge at the end of the 20th century. The original tiled stoves are especially valuable; one of them was made at the turn of the century (19th/20th c.) for the 700th anniversary of the capital, on its tiles are depicted views and scenes of Riga and its surroundings.

Forest Museum

Nowadays, the Forest Museum is also located in the castle, where the forestry of Latvia is presented and there are exhibitions dedicated to hunting, as well as the Latvian Sign Center, where everyone can create their own Latvian sign. There are also herbal tea tastings, thematic tours and other events, for example, a forest linnets school or a tour for newlyweds.
